

Archeologist

Someone who analyzes items that were made or used by humans who lived a long time ago.

Incan Empire

Existed from the years 1438 to 1533 but no longer exists today. Spread across South America, but was mostly found in the area that is now Peru and Chile.

Canal

Long, narrow section of land that is dug up and filled with water. Brings water to places that are far from natural water sources.

Paleo-Ecologist

**Someone who studies animals and
plants from a long time ago.**
