Qualities Of A Leader

Meet Tabitha!

Hi, I'm Tabitha, and I'm a mayor! A mayor is a leader in a town or city. A mayor makes important decisions to keep people safe, healthy, and happy!

I have been a mayor for almost four years. My time as the mayor is almost over. I definitely want to be the mayor of my city again! As a result, I am going to run for election. An election is an event when people vote, or choose, who they want to be the leader of their city, state, or country! I am hoping that people will elect me again to be their next mayor.

Preparing for My Speech

Today, I am giving a speech at the city park to explain why people should elect me to be the mayor again. My speech will talk about qualities of a good leader. Qualities describe a person's thoughts, words, and actions. I want people in my city to know that I have many qualities that make me a great leader.

During my speech, I am going to hold cards that have words on them about what I want to say. If I forget what I want to say during the speech, I can look at the cards as a reminder!

Cards for My Speech

Take a look at my cards! Each card has a different quality that I want to talk about.

Plans Ahead

Planning ahead means thinking about the future. A good leader sets goals to make their city, state, or country the best it can be!

Listens well to others

Listening to others helps a leader understand what people want and need. A good leader listens to many ideas in order to make the best decisions they can!

Is a creative thinker

Solving a problem is not always easy. A good leader must think creatively to come up with an answer!

Cards for My Speech

Cares for all people

The world is full of unique and special people. A good leader cares for everyone in their city, state, or country - no matter what they look like, how old they are, how much money they make, or whether they are boys or girls!

Is dependable

Being dependable means many things. It means being honest by telling the truth. It means keeping a promise by doing what you say you will do. A good leader is a person who can be trusted and keeps promises. A good leader is someone that people can count on for help.

I am excited to give my speech. I hope people will vote for me to be the mayor again! Wish me luck.
